## **Honorary Master Installation Technician Guidelines**

### **Requirements:**

#### **Obtaining Status Through The Certification Method**

- Technician must obtain Master Installation Technician Certification and then recertify three consecutive times.
  - No less than one calendar year of certification must occur between initial certification and the first recertification, and then must occur between each recertification.
- Master Installation Technician must have contributed to subject matter material or review of at least one current study guide and exam during Master Installation Technician Certification tenure.
- Assuming these two qualifications are met, technician must apply for Honorary status. Honorary status is not automatically granted and is bestowed at the discretion of the MECP Consultant and management staff. To apply, email your request to [mecp@mecp.com](mailto:mecp@mecp.com).

#### **Obtaining Status Through The Subject Matter Expert Method**

- Must be currently certified as an MECP Master Installation Technician.
- Must have contributed to at least two current study guides and exams during non-lapsed Master Installation Technician Certification tenure.
- Assuming these qualifications are met, technician must apply for Honorary status. Honorary status is not automatically granted and is bestowed at the discretion of the MECP Consultant and CTA management staff. To apply, email your request to [mecp@mecp.com](mailto:mecp@mecp.com).
